An International Workshop on *Technology for Education*

Date : August 4-6, 2009

**Venue : Radha Regent Hotel,
110C, Electronics City
Phase 1
Near Wipro Gate 1 & 2
Bangalore – 560 100**

Technical Cosponsors

The purpose of this Workshop is to bring together researchers in the relevant technologies and interested academics to give presentations of research results and to discuss research directions.

COVERAGE

A number of eminent speakers from India and abroad would be presenting invited papers. There would be a total of about twenty papers, including contributed papers. The papers cover a number of areas, including the following:

Mobile learning, search for rich-media content, searching for material on the web to support e-Learning sessions, content creation for e-Learning, metadata for learning objects, story-telling and collaborative game play, teaching programming through games, multi-player games, multimedia and games, student modeling, automated analysis of videos, online testing in synchronous cyber classrooms, online laboratory, and technology in distance education.

TUTORIAL AND SPECIAL SESSIONS

Special sessions will cover developments in the Open Educational Resources movement. There will be a tutorial on Adaptivity and Personalization in Mobile Learning Technologies by Dr. Kinshuk of Athabasca University.
