| differentcourses. Information can be retrieved batch specific wise and for the entire institute as well. AIIITB applicant can apply online through the ERP, see the status ofhis/her application and also knowthe result /outcome of his/herselection through the ERP. Statusof the admission is automaticallyupdated on the portal andaccessible to the applicants. Theadmission information on theinstitute website is quitecomprehensive and selfexplanatory.Besides the portal and ERP supporthere is also a help desk availablefor telephonic enquiries pertainingto admission. All aspects of meritlist generation, display, feeremittance, receipt etc are takencare by the ERP. The systemconfigures the mid semester exams, internal assessments, quizzes andend semester exams and produces thefinal result after processing. Sothe ERP is an MIS solution for thecampus from admission to graduationof students, taking care of allintermediatory processes in aseamless manner. Other MISstandalone systems include hostelmanagement, Student campus entryexit management, Campus peoplecount management, student campus entryexit management, campus peoplecount management, student campus entryexit management, campus peoplecount management, systemcalled Lybsys is also in place. TheFinance related MIS is operatedthrough an ERP accounting softwarecalled Tally which takes care of the entire gamut of financialaccounting, inventory management, pay roll, purchase, fee |

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Feedback was obtained from Alumni, Parents, Employers, Students and Faculty. Dean (Academics) consolidates all the feedback and renders a report to the IQAC and also to the faculty members in a faculty meeting. This ensures continual improvement. Some of the improvements that resulted from the feedback are appended below: - Alumni's feedback was discussed with course instructors. The need to continue to strengthen the foundations was emphasized. This is crucial for continuous learning. - Consequence as a result of Alumni feedback. Students permitted to register for Project Electives (PE) and Reading Electives (RE) directly in various Research Centers and Research Labs of IIITB. - Consequence as a result of feedback from Employers who suggested providing opportunities for all students (not just PhD students) to have exposure to research in all areas of computing. Faculty members were encouraged to provide conference papers and journal papers are reading material as part of the courses. - In response to student's feedback that many students aspire to pursue PhD, they wanted elective courses to go deeper on the topics. A committee was constituted to evaluate and recommend plagiarism checking software was created by Chairman Senate. Feedback from Teachers - Since courses had started incorporating technical writing as part of the course activities, teachers were concerned about plagiarism in the student submissions.

(maximum 500 words) IIITB has various channels of mentoring facilities available to its students. The main element of our mentoring programme is, however, targeted at the incoming cohort of undergraduate students. This is a particularly vulnerable group in terms of their age, the toll that a rigorous coaching schedule potentially can take on their physical and emotional well-being, as well as being their first experience away from a protective home environment. Our Student Mentor Programme (SMP) seeks to provide mentoring services to the first-year students so that they understand the challenges and opportunities at IIITB and develop a smooth transition to campus life. Through this programme, the mentors, a carefully identified group of senior students, attempt to proactively identify problems faced by their assigned set of mentees, and solve them personally, or bring them to the attention of concerned Institute officials at the right time. The SMP operates under the overall guidance and oversight of the Coordinator (Student Affairs) office. Nominations from senior students are invited before the incoming undergraduate cohort joins, the applications are scrutinized by a groups of faculty members and linstitute officials and mentor-mentee pairing is done with a suitable consideration of the branch and gender. The mentors are appropriately briefed and counselled by Institute officials as well as spents drawn from our student counselling partner firm. Every mentor is expected to work closely with a smaller group of 8-10 mentees for the entire year through p | | | | | | | |

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The institute administration takes direct initiative in the maintenance and upkeep of infrastructure and support facilities. The Infrastructure and Maintenance committee headed by the Director oversees the maintenance of the buildings, classrooms, sports complexes and laboratories. Registrar, Chief Administration Officer, Chief Finance Officer and various committee heads monitors the quality of maintenance of infrastructure and equipment. Infrastructure and Maintenance committee Institute's Estate Office headed by Chief Administrative Officer (CAO), maintains the campus infrastructure, electrical installations and equipment through its preventive and post maintenance activities. In case of any repairs/ faulty equipment reported orally or in the Complaint Registers maintained for this purpose are immediately attended to through outsourced staff /team. Security Services - the Campus security is also outsourced and maintained by external agency which provides round the clock security. CCTV cameras are installed in all the prime locations of the campus for surveillance. Housekeeping Services Gardening have also been outsourced. Maintenance of Academic, Library, Laboratories, IT, Sports Hostel Facilities. Academic infrastructure and maintenance is under the control of Dean (Academics) and technical staff assigned takes care of smooth functioning of classroom activities and teaching aids. IT, Library, Laboratories and Sports facilities and services are supervised by the respective faculty-in-charge and advisory committees. Institute Data Centre with the help of IT Committee through its inclusive IT policy provides Wi-Fi, Cybersecurity, Data management and recovery, licensed software, and highly refined server services round the clock with the supporting staff and maintain adequate computers accessories in Admin, faculty, Lab, and Classroom areas. Library facilities and services are well maintained by the library staff under the supervision of Library Committee and of the facilities with the help of housekeeping staff and provides its users a conducive learning environment with flexible timings for reference to its print resources and electronic resources round the clock without any physical barriers through campus internet and remote access facilities. Library committee strives to provide the optimal support in terms of teaching and learning resources and continuously looks out ways for improvement in providing the facilities and services to its patrons. through faculty recommendation , Feedback and Suggestions from campus community. Sports Complex and recreational facilities are handled by the Qualified Sports Officer and the facilities are maintained by the Campus Maintenance Committee. Sports equipments are periodically inspected and necessary repairs are done as and when required and new gears are purchased accordingly. A separate Sports Committee comprising mostly students overseesthe day to day maintenance. Medical facilities: A Clinic with a Doctor and a nurse is available on campus. Institute has a dynamic network with local hospitals which provide ambulance facilities in case of emergency and also inpatient admissions in those hospitals. First-aid kits are kept handy and always available at the security desk near the Reception area.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Student Activities Council (SAC) is a student-elected, student-member body, consisting of equal membership from under-graduate and post-graduate students. It is an elected student body which consists of regular and full-time students only, as per the recommendations of the Lyngdoh Committee set up by the Ministry of Human Resource Development, Government of India. A structured election system is followed and students of all degree programs at the Institute select a set of eight SAC members every year. The elected SAC members decide on allocating portfolios among them based on competency and interest. SAC act as a bridge between the Institute administration and the student community. It steps in to address students grievances related to academic and administrative matters. SAC meets regularly to resolve student concerns and plan for various student led curricular and extra-curricular activities on campus. Various Student Committees are formed to guide and involve students such as • Alumni Committee collaborates with alumni • Branding Committee maintaining a presence on various social media platforms and poster design. • Food Committee interfaces with the food vendors for the mess. • Infin8 Committee organizes the annual cultural event. • Placement Committee placementrelated activities. • Sports Committee organizes sports events throughout the year. Student Clubs Aikyam help the poor and the needy in the society. 8Bit magazine run by the students. Dance Club organizes dance events and competitions. Parvaaz (Theatre Club) performs theatre and street plays. Music club organizes musical nights and perform at all key events of the Institute. Aksh (Lireature Club) forum to showcase their poetic and story writing

abilities. Debate Club to enhance their interpersonal skills, communication and leadership capabilities. Enigma (Robotics Club) to develop interest in Robotics and Artificial Intelligence. SPICMACAY IIIT Bangalore Chapter organizes classical music, dance, folk arts and classic cinema screenings. Lean In Club promotes and mentors female students in computing, open source and research. Zense Club conducts Hackathons and promote Open Source culture. Movie Club to develop acute movie watching skills, depth in film viewing and appreciation. Events and Festivals: • Infin8 three-day annual event with simulation games, cultural activities and fun field games. • Yamini annual event takes place on 31st October. It consists of dance and music performances by renowned artistes across the country. • Spandan annual sports event conducted in March. The three-day event is fully loaded with outdoor as well as indoor games. • Sangam annual

event exclusively for the alumni organized by the Alumni Committee. •
Foundation Day celebrated on 15th September, every year. • Convocation Day held
on 1st Sunday of July, every year. • Ramanujan Math and IT conference (RMIT) is
annual event is held in remembrance of mathematician, Srinivasa Ramanujan. •
Research Innovation, Society Entrepreneurship (RISE): The three-day event to
showcase the Institutes focus and contribution in research and innovation
dimensions. • Winter School is a three-day annual event by CITAPP. • Summer
School aims to give students knowledge on algorithmic and theoretical aspects
of machine learning.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

No

5.4.2 – No. of registered Alumni:

2730

5.4.3 – Alumni contribution during the year (in Rupees) :

871500

5.4.4 - Meetings/activities organized by Alumni Association :

2

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Committee of Professors and Students organized on August 19, 2017 , Experts' Workshop titled "Economic Inclusivity in India: Conceptual and Empirical Recommendations for an Indicator Framework" , Group of Professors and Students organized on August 23, 2017 - SPIC MACAY programme - Carnatic Violin by Prof T N Krishnan, On September 02, 2017 - Workshop on Privacy and Global Data Protection: Case of India, CITAPP, IIIT-B IAPP was organized by group of Professors and Students, On September 05, 2015 a group of professors, staff members and students organized Blood donation camp at IIITB, A committee of faculty members and students facilitated inauguration of Gooru labs on September 05, 2017, October 16, 2017 - SMOGATHON 2017, Global competition for smog-fighting innovations was organized by a group of Professors and students. Registrar, Coordinator Students Affairs, wardens and a group of students consulted and arrived at a decision of engaging YourDost an online platform for counselling and the same was launched on November 21, 2017, On December 01, 2017 - ICANN 60 Readout session a global event was organized by a group of

Professors, On December 11-13, 2017 - a 3-day Winter School organized by the Professors involved in Centre for IT and Public Policy, A group of students and professors headed by Coordinator Students Affairs organized Infin8 2018 - The Student Techno-Cultural Festival from Jan 19th 2018 to Jan 21st, 2018. On March 31, 2018:, TEDx event at IIIT was organized by students and guided by a couple of professors, On April 5th, 2018, on account of efforts of a group of Professors and students an Open Source Technology Lab was inaugurated, On account of efforts of a group of faculty members from IT and Society vertical, on April 13, 2018 an Indonesian delegation- Ministry of Communication and Informatics, Republic of Indonesia had interaction for offering M Sc Digital Society program to Indonesian Government officials. 25, a A group of Professors made a proposal to the Government of Karnataka for commencing a research project titled Machine Intelligence and Robotics (MINRO) which resulted in the inauguration of MINRO lab in Ramanujan block by Mr. K J George (Minister for Large Medium Scale Industries, IT and BT, Science and Technology, Government of Karnataka)

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 - Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

| Strategy Type | Details | | | | |
|--------------------------------------|--|--|--|--|--|
| Admission of Students | The admission process in IIIT Bangalore is transparent and merit based. IIITB gives advertisement on the website for each program. Potential students applied. For iMTech IIITB considers JEE MAIN organized by Ministry of Education Govt. of India. For MTech IIITB considers GATE exam. For PhD, MS by Research and MS for Digital Society students written test, followed by viva. If someone has good GATE score preferred for MSR and PhD admission. | | | | |
| Industry Interaction / Collaboration | <pre>IIIT Bangalore has multiple sponsored projects, consulting from industry and special also academic programs for industry, etc, which shows a strong and long industry interaction and collaboration from the day of inception. We have also a IAB (Industry Advisory Body), where multiple industry leaders in ICT areas interact with Dean- RD and others for vision for next niche areas RD. Accordingly we shape multiple</pre> | | | | |

| | research portfolios in institutes |
|---|--|
| Human Resource Management | IIITB has recruited adequate number of faculty members, Lab staff, admin staff and finance staff according to the guidelines mandated by the board and management bodies. The faculty and staff are being supported by various facilities etc. for their professional growth and personal health. |
| Library, ICT and Physical Infrastructure / Instrumentation | <pre>IIIT-Bangalore has a well equipped library with physical books, e-Books, journals, class lectures, and other academic requirements. IEEEXplore and other latest journals in IIITB library helps a lot the research students and faculty for their research activities. In post graduate level, faculty members also refers latest papers and books in class. The above licenses of journals in library helps the students a lot. It has also Koha ILMS system to help the management of library. IIITB has state of art ICT support to faculty, staff and students. It has a high end virtual computing system and multiple servers. Whole campus is covered by latest generation WiFi access points and management software. The state of art WiFi management takes care of all kind of wireless band allocation to security related issues. Each lab also well equipped with various instruments too for courses and RD activities.</pre> |
| Research and Development | <pre>IIIT Bangalore gives a lot of stress to research and development along with teaching. Here the faculty selections one of the major criteria is their research potential. Each faculty members publishes in good journals and conferences. For all the young faculty members, moment they join, the institute gives Rs 5 lakhs to set up their research activities. If more fund needed for RD, the institute also supports case by case basis. Research scholars (PhD) have to publish in good venue for writing their thesis. iMTech and MTech students also encouraged and evaluated according to their RD output. The institute also encourage to set up research Labs. All the faculty members write research proposal and being funded from Govt of India, Govt of Karnataka and many other MNCs</pre> |
| Examination and Evaluation | The teaching and research have been focused very seriously by IIITB |

| | authority. In this process of teaching, each faculty members student feedback analyzed by competent authority. The students feedback are anonymous. This feedback process are done time to time. Meetings to discuss academic output of subject from respective subject in a stream and program are also routine part of practice. In the meeting after rigorous discussion the proper suggestions to improve on the teaching learning practices are communicated to the concerned faculty for consideration and implementation and the loop is closed during the same meeting in same academic year or semester |
|------------------------|---|
| Teaching and Learning | The teaching and research have been focused very seriously by IIITB authority. In this process of teaching, each faculty members student feedback analyzed by competent authority. The students feedback are anonymous. This feedback process are done time to time. Meetings to discuss academic output of subject from respective subject in a stream and program are also routine part of practice. In the meeting after rigorous discussion the proper suggestions to improve on the teaching learning practices are communicated to the concerned faculty for consideration and implementation and the loop is closed during the same meeting in same academic year or semester |
| Curriculum Development | IIIT Bangalore is an autonomous and Deemed to be university. Chairman of the Senate forms a committee for a program. The curriculum development for each program is done by faculty expert of that area by multiple discussions and meetings. Then the curriculum is presented to all the faculty members. Later to Senate members. Senate consists of senior faculty members of IIITB, eminent externals and other members. Curriculum is being discussed and modified if any Senate suggestion. Later the final copy of the revised curriculum is presented to Senate again for approval. Similarly each course designed by a faculty, presented to all the faculty members, then to Senate. |

6.2.2 – Implementation of e-governance in areas of operations:

| E-governace area | Details |
|--------------------------|--|
| Planning and Development | The Director is the executive head of the institute. The basic planning and |

| | <pre>development is conceived, executed and monitored by two main councils - The Administrative Council (comprising Director, Registrar, CAO, CFO, Manager IT, CEO Outreach) for administration, infrastructure and day to day running and the Deans' council (comprising all Deans) which plans and administers academic and research activities. The overall management at the strategic level is approved and monitored by the Governing Body (https://www.iiitb.ac.in/governing-body) for vision and administrative aspects and by the Senate for the Curriculum and Syllabi. All aspects of Governance, mandatory disclosures etc are given on the institute's website at https://www.iiitb.ac.in/about-us.</pre> |
|----------------------|--|
| Administration | The Registrar along with CAO steers the overall administration of the institute to provide a learner friendly and research friendly atmosphere in the campus. The administration is proactively responsive with all stake holders of the campus community in loop, viz. Students through SAC (Students' Activity Council), faculty, staff, parents and the alumni. Utmost transparency is maintained in all the decisions and overall administration. The institute complies with all the regulatory bodies viz., UGC, AICTE, Department of Education, Government of Karnataka and participates in all its surveys, seminars and conferences to ensure that the overall administration is in sync with the policies and orders passed by these agencies. Frequent feedback is sought from all stakeholders through formal/informal meetings, surveys and various modes of communication |
| Finance and Accounts | Finance and Accounts is steered by Chief Finance Officer, formerly Adviser (Finance). The institute follows Accounting Standards as promulgated by the Institute of Charted Accountants of India (ICAI). All financial and other related authority in the Institute vests in its Governing Body. To facilitate smooth operation of the affairs of the Institute, the Governing Body delegates its authority to the Director in his capacity as the Chief Executive of the Institute, with powers to sub-delegate except in case of items |

| | of authority that are specially reserved for exercise by the Director or other designated Officer of the Institute. All financial transactions are mostly done digitally through online banking and in a few cases through cheque (Account payee only). Petty cash facility is available to meet daily exigencies with certain financial authority with the Director. The institute finance is audited through a two-layer robust auditing process comprising Statutory auditors who conduct an annual audit and Internal auditors who conduct a half yearly audit. The institute's audited statements are available in the Annual Reports which are uploaded on the institute website at https://www.iiitb.ac.in/annual-reports. |
|-----------------------|--|
| Student Admission and | Support All admissions are through an automated process through ERP, the link for which is available in the institute website https://www.iiitb.ac.in/admissions for each of the programs. A IIITB applicant can apply online through the ERP, see the status of his/her application and also know the result /outcome of his/her selection through the ERP. Status of the admission is automatically updated on the portal and accessible to the applicants. The admission information on the institute website https://www.iiitb.ac.in/admissions is quite comprehensive and self- explanatory. Besides the portal and ERP support there is also a help desk available for telephonic enquiries pertaining to admission. All aspects of merit list generation, display, fee remittance, receipt etc are taken care by the ERP. An open house is organized on the day of admission (day 1) where student friendly counters are set up for document verification, hostel allocation, student number allocation etc. Parents are also apprised of the curriculum, infrastructure facilities and various other administrative aspects concerning the students. |
| Examination | concerning the students. Examination The entire examination process is steered by the Controller of Examinations. A comprehensive examination infrastructure is in place |

| | r conduct of examination in physical de and in online mode. Various tools |
|-----|--|
| | of evaluation like projects, |
| | assignments, quizzes, thesis, |
| ir | nternships, mid-term examination and |
| end | d term examinations are employed. For |
| the | e mid-term and end-term examinations, |
| th | e institute has adopted a paper-less |
| dig | gital tablet/ exam-pad where students |
| | can write their exams using an |
| ele | ectronic scriber. Professors can also |
| er | valuate online at their own time and |
| sp | ace. Evaluated answer books are sent |
| t | to the students digitally for their |
| pe | rusal and feedback. This system also |
| fa | acilitates question wise analysis of |
| | each of the answers. For on-line |
| ex | aminations, a system is in place for |
| | on-line proctoring. An ERP portal |
| | facilitates an automatic |
| ger | neration/downloading of transcripts / |
| ma | rks card by the students themselves. |
| 2 | The entire system of examination is |
| | thus transparent and automated at |
| | various levels. |

6.3 – Faculty Empowerment Strategies

6.3.1 – Teachers provided with financial support to attend conferences / workshops and towards membership fee of professional bodies during the year

6.3.3 - No. of teachers attending professional development programmes, viz., Orientation Programme, Refresher Course, Short Term Course, Faculty Development Programmes during the year Title of the Number of teachers From Date To date Duration professional who attended development programme Talk by Dr. 23/08/2017 Nill 1 14 Shipra Agrawal, Columbia University View File 6.3.4 - Faculty and Staff recruitment (no. for permanent recruitment): Teaching Non-teaching **Full Time** Full Time Permanent Permanent 43 43 41 41 6.3.5 - Welfare schemes for Teaching Non-teaching Students Provident fund, Provident fund, Insurance, Paper Gratuity, Group Insurance Presentation, Prize Gratuity, Group Insurance Scheme (GIS), Medical Scheme (GIS), Medical Money, Conference/ Reimbursement, On Campus Reimbursement, Campus Seminar/ Workshop Fees, Doctor facility, Doctor facility, Campus Doctor facility, Counselling Services, Counselling Services, Counselling Services, Womens Cell Womens Cell Womens Cell 6.4 – Financial Management and Resource Mobilization 6.4.1 - Institution conducts internal and external financial audits regularly (with in 100 words each) Institution conducts internal and external financial audits regularly. Internal Auditor is appointed by the Governing Body of the Institute. M/s Rao and Swami, Chartered Accountants is our Internal Auditor. Internal Audit are carried out in each half of the financial year. The Institute has a strong internal audit system. Queries raised by the auditors during the course of the audit are clarified by the finance team. The finance department requests clarifications from the respective teams/departments with respect to the queries raised during audit. Based on the explanation and examination of the documents, delegation of powers, Finance and HR manual, Internal Auditor will issue Audit report. Appropriate corrective measures, wherever required, are taken and necessary follow up is done to ensure compliance to the Audit Comments. This audit examines and report, whether the management policies and guidelines are properly implemented, compliances with the various Acts and regulations and the Internal control system is adequate and the extend of deviations and financial impact thereof. Audit reports placed before Audit and Finance Committee of the governing body and after its recommendation, it will be placed before the Governing Body. Our External/Statutory Auditors is M/S Rao Associates, Chartered Accountants, whose appointment is recommended by the Governing body and approved by the Members of the Society in the Annual General Meeting of the Society. The External Auditor conducts the audit after the close of the financial year. The scope of audit is to report on the true and fair view of the financial statement of the institute. Auditor also reports whether the financial statement has been prepared in accordance with generally accepted accounting practices in India, in particular mandatory accounting standards issued by The Institute of Chartered Accountants of India has been complied

with. The auditor examines the books and records, Income and Expenditure Statement, Receipts and Payments, and balance sheet and the internal audit report. Audit report ensure/covers the following aspects. • Sufficient and appropriate evidences are available for entries made in books of account • All transactions are being recorded in books of account, i.e. there is no omission • Information contained in the financial statements is clear and unambiguous • Amounts shown in financial statements are properly classified, described and disclosures are made in conformity with applicable accounting Standards • Financial statements reflect true and fair view of financial results and financial position as on the Reporting date. Auditor report was placed before the Audit and Finance committee of the governing body and after its recommendation, it is paced before the Governing body. The financial statement along with audit report is finally adopted in the Annual General Meeting of the members of the society and afterwards it will be filed with the Registrar of the Society.

| 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five) | | | | | | | |
| 1) Disconnection of HNS water supply system from Hostel Blocks - old system of water supply to all water outlets through underground HNS (Hydro Pneumatic | | | | | | | |

System) is dismantled and all hostel blocks are connected with overhead water supply tanks to minimize water wastage. 2) Garden waste composting - Separate bins are installed to compost garden waste in-house. Garden waste compost is delivered to Municipality (Elcita) for road side trees. 3) Waste Segregation at source - Separate bins to collect wet/dry/reject wastes and also E-waste. Wet waste is composted in-house where as Dry, Reject, E-Wastes are handed over separately to municipality vendors. 4) Sanitary Waste Bins in all the Ladies washrooms to avoid mixing of waste - Signed MOU with Rentokil for collection of sanitary waste separately and dispose as per municipality guidelines with proper sanitization. 5) Rainwater Harvesting Pits - Campus has more than 33 green space to ensure rainwater drains inn. In addition, we have constructed 3 numbers of Rain Water harvesting pits to increase ground water level.

7.2 – Best Practices

7.2.1 - Describe at least two institutional best practices

BEST PRACTISE - 1 Samvaad 2. Objectives a) Create a platform for research interactions among members of IIITB b) Connect with the society and potential collaborators through our research c) Create a mechanism for the institute staff and students to come together to discuss research and other nonadministrative matters pertaining to greater good 3. The Context It was widely felt that a lot of faculty interactions with one another had to do with administrative matters, and faculty members of IIITB often had little to no idea about the research interests and research contributions of others. This became a hindrance when presenting the institute's activities to external agencies and potential collaborators. There was also a need expressed for showcasing IIITB for its research activities to the external world through online media, which at that time, primarily comprised of videos promoting academic curricula and institutional branding. 4. The Practice Since 2017, IIITB has earmarked a time in the timetable every Monday afternoon for "Samvaad"-a talk series where everyone is welcome to attend. Talks are given by IIITB faculty and research scholars, with an occasional distinguished guest speaker. Faculty members and research scholars are encouraged to speak about their own research, and research contributions and present it in a way that is accessible to a disparate audience. Samvaad talks were held in the institute auditorium in the beginning, with recording facilities that recorded the talks. Following the pandemic in 2020 and the resultant lockdown, Samvaad went completely online. The talk is presented over a Zoom session, with live streaming on YouTube and FaceBook. The online nature of the talk series has been an instant hit, with audience numbers and range increasing many-fold. The talks are archived on the Institute YouTube channel as a separate playlist

here: https://youtube.com/playlist?listPLe1PiiFnE7y9HQ15n7G5X4_TSxxbY2jSy
Samvaad talks are organized into thematic clusters, with a cluster coordinator
 among the faculty members taking charge of the set of talks under their
 cluster. They are also expected to summarize the learnings at the end of the
 talk cluster and foster research collaborations among the faculty members.
 Samvaad also features talks by distinguished external speakers, who are
 recommended by the institute faculty. Each recommendation undergoes an internal
 review, before invitations are sent out to external speakers. Samvaad provides
 a talk-series platform as a service, to host research workshops and talk series

of IIITB research centers, thus greatly reducing their efforts towards popularizing, managing, and archiving technical talks. 5. Evidence of Success Samvaad has become an integral part of the institute's activities at the time of this writing, and has a dedicated time allocated in the semester timetable. The talk series features several regular attendees, with each talk comprising of about 50 members of the audience on the online Zoom session, and a similar number watching live on Facebook and YouTube. Several members of the audience comprise of people working in other industries, NGOs, Think Tanks and also the government. Samvaad has resulted in an increase in the number of joint research proposals and research collaborations from the institute faculty. It has also resulted in several new collaborations to take root between IIITB and external collaborators. Research scholars presenting in Samvaad have also reported

fruitful interactions and constructive feedback from the audience, which have helped them finetune their research and result in better publications. 6. Problems Encountered and Resources Required Like any new activity, Samvaad went through initial teething troubles. We had difficulty persuading faculty members to present their work to the institute and for students and research scholars to attend the talks. There were some suggestions to make attendance in Samvaad mandatory to all the research scholars. After deliberations, it was decided not to implement a coercive measure to encourage participation, and instead inspire participation by promoting quality talks. Over time, participation by students

and research scholars steadily increased and today, there is a sizeable proportion of research scholars who attend Samvaad regularly and participate with enthusiasm. The weekly frequency of research talks was also initially found to be too frequent and there were demands to make the talks once in a semester or once in a month. However, over time, the weekly frequency stayed on, and was found to be not only feasible, but also desirable as the number of backlog of interested speakers is increasing. The main cost incurred by this talk series was hiring of more people for the media and outreach cell, which curates the talk series and published it on YouTube. The weekly frequency of talks resulted in a high workload for video editing and promotion, for the small number of staff members that managed our media outreach. BEST PRACTISE -2 Creative non-technical expressions of engineering concepts 2. Objectives The objective is to make the learning of engineering more interesting, fun and student-centric. The underlying principles of the practice are: - i. When students learn to express engineering concepts in simple, non-technical expressions, they necessarily have to learn these concepts well ii. When students work in groups, their leaning is enhanced iii. When learning is fun, the motivation to learn is increased. 3. The context Most higher education, particularly in India, is primarily lecture based, where the teacher comes to a class and lectures. Students are passive recipients of the material being taught. It is now well-established that such modes are not very effective for students to really learn. Active involvement in the learning process is essential for deep learning to occur. Moreover, motivation for learning is at an all-time low among engineering students in India, due to a variety of factors ranging from the gruelling engineering entrance exams that emphasize cracking multiple-choice questions and not conceptual understanding, to the job market where most engineering graduates end up doing Information Technology related jobs irrespective of their branch of study. In such a scenario,

innovative methods are called for to bring back the fun and excitement of engineering. 4. The Practice Students are given assignments during a course, which they must complete in small groups of two to four students (depending on the specific content of the assignment). Each assignment requires the students to explain an engineering concept they have learned in the course, through a non-technical composition. The composition can be a poem, story, painting, sketch, poster, cartoon, video, song, or any other artistic form. Such assignments are very uncommon in Indian higher education, perhaps even in the world. The assignments have advantages as well as limitations. The advantages are the following: Students are compelled to think deeply about the concept to be explained, because expressing a concept through a non-technical composition is not trivial. Students have to work in small groups, which leads to significant peer interaction and learning. Students who are not interested in engineering but who are good at some art form, are naturally attracted to such assignments, as it gives them an opportunity to use their artistic talents and in the process, they end up learning the engineering concept. Copying of assignments is eliminated! Correction of assignments, which is usually a most boring task for the teacher, becomes a joy, because every assignment is different. The limitation of such assignments is that today's engineering student has been so deprived of extra-curricular activities that their creativity has been severely stunted. Therefore they struggle tremendously with coming up with a non-technical creation, for most of them are not good at any artistic form whatsoever. 5. Evidence of success The primary evidences of success are two: First, the creativity and innovativeness of some of the assignment submissions themselves (posters, songs and videos, enjoyable even after many years). Second, the feedback from many students that the working in small groups on the assignment was a unique, joyful and learning experience. 6. Problems encountered and resources required As mentioned in point 4 above, there are many students who find such assignments boring, primarily because all their creativity has dried up by the time they enter an engineering college, and thus have nothing creative to come up with. No resources are required for giving such assignments. Whatever stationary, etc. the students need to create their compositions, they obtain themselves. 7. Notes Implementing this idea is very straightforward. All it primarily needs is for a teacher to identify concepts (s)he is teaching in a particular course, and announcing these as the topics for the creative assignment. The formation of groups of 2 to 4 students can be left either to the students, or can be done by the teacher, depending on the year in which the assignment is given. In the first or second year, the teacher forming the groups tends to work better, because the students are still getting to know each other, and such assignment provides them an opportunity to work with their own classmates they may or may not know well. In third and fourth years, students have already formed friends, and forcing them to work with students they are not close to, seems to be counterproductive.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

https://www.iiitb.ac.in/best-practices

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

unbeatable reasons why IIIT Bangalore (IIITB) is the preferred university for IT education in India 1. A clear focus on our raison dêtre - It is our vision to leverage the power of Information Technology to transform the lives of individuals and society through continuous innovation in IT education, research, and entrepreneurship. 2. Over two decades of excellence in IT education - As a deemed-to-be university, we have consistently been at the

forefront of IT education and innovation for the past 21 years. Intersecting between technology and society, IIITB has grown in stature to become a highly reputed institute with its unique model of education, research, and industry interaction. 3. A global outlook and an industry-ready curriculum - We attract students from all over India and abroad and have the unique distinction of selecting 100 students on merit, pushing up the level of discourse and peer group at the institute. We offer interdisciplinary courses which criss-cross information technology and social sciences. 4. Research Focus - Research is the driving force at IIITB which has three key research centres with customized infrastructure and multiple labs managed by a group of expert Faculty members. Research on the campus is showcased through different forums round the year such as IIITB Rise, Samvaad talk series, conferences, presentations and publications. 5. World-class Faculty - We have outstanding faculty drawn from the some of the best institutions across the world such as MIT, Cornell University, Pennsylvania State University, University of California Berkeley, IISc, and University of Toronto. The institute's pool of distinguished professors has the right mix of academic expertise, research experience, global industry exposure and insights. 6. 100 Placements - IIITB has recorded 100 placement with major companies in the areas of product, hardware, research and development consistently visiting the campus. Students have also bagged international offers with record salaries. Some of the consistent recruiters include Cisco, Morgan Stanley, TCS, Accenture, Telstra, MediaTek and MathsWorks. 7. A vibrant Alumni community - We are proud of our 3300 alumni, many of whom currently hold leadership positions in over 100 blue-chip MNCs and large companies in the areas of IT products and services, in India and abroad. 8. Innovation Hub - IIITB Innovation Centre collaborates with exceptional researchers, innovators, entrepreneurs, users, and communities to co-create knowledge and socially-relevant solutions using cutting-edge technologies for a wide range of social needs. Our portfolio of solutions and startups help us, our communities and our governments. The centre nurtures research-led innovations, and offer pre-seed and seed-stage investments. 9. Campus and Location: The nine-acre main campus in Electronic City, the heart of the IT Industry in Bengaluru, has five main buildings with facilities like Innovation Centre, academic blocks, research labs, state-of-the-art classrooms, playground, library, food court, four student residence halls, medical room and multipurpose hall. 10. World-class facilities and amenities: The institute has around 90,000 sq. ft. of air conditioned space. The campus has modern facilities for various outdoor and indoor sports. A modern 900 seater auditorium-cum-conference complex is almost ready for

Provide the weblink of the institution

8. Future Plans of Actions for Next Academic Year

1. Emphasis on Co-Curricular Activities In order to ensure that students emerge from IIITB with a well-rounded personality that is truly reflective of the Graduate Attributes and Programme Outcomes, special drives are taken up to allow students to conduct and participate in co-curricular activities across a wide spectrum of areas such as music, art, and sports. Special budget is set aside for conducting events, creation of clubs, and so on. 2. Ensure mental well-being of students In order to help students having psychological problems, arrangements are made to tie up with professional organizations who provide counselling services to students free of cost. The on-going student mentoring process is also going to be strengthened by allocating faculty mentors to every student. Services agreement with YourDOST is planned to be signed as part of this initiative. 3. Research Infrastructure Upgrade To help improve the quality of research, additional investments on tools is going to be made specifically on tools that support research activities. Licenses for Matlab, Turn-it-in for plagiarism checking are going to be procured as part of this initiative. New highperformance hardware based on IBM Power Series platform is going to be procured to fast-track research in AI and Machine Learning
