

Yearly Status Report - 2019-2020

Part A				
Data of the Institution				
1. Name of the Institution	INTERNATIONAL INSTITUTE OF INFORMATION TECHNOLOGY BANGALORE			
Name of the head of the Institution	Prof. S Sadagopan			
Designation	Director			
Does the Institution function from own campus	Yes			
Phone no/Alternate Phone no.	918041407777			
Mobile no.	9845900014			
Registered Email	registrar@iiitb.ac.in			
Alternate Email	dean-academics@iiitb.ac.in			
Address	26/C, Hosur Rd, Electronics City Phase 1, Electronic City			
City/Town	Bengaluru			
State/UT	Karnataka			
Pincode	560100			

2. Institutional St	atus					
University			Deemed			
Type of Institution			Co-education			
Location			Urban			
Financial Status			private			
Name of the IQAC	co-ordinator/Directo	r	Prof. Chandrashekar Ramanathan			
Phone no/Alternate	e Phone no.		918041407777			
Mobile no.			9845943079			
Registered Email	egistered Email registrar@iiitb.ac.in					
Alternate Email			dean-academics@iiitb.ac.in			
3. Website Addre	SS

8. Provide the list of Special Status conferred by Central/ State Government-UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.

Institution/Departmen t/Faculty	Scheme	Funding Agency	Year of award with duration	Amount
Information Technology	Govt of Karnataka	Center of Excellence Machine Intelligence and Robotics	2018 1800	343500000

9. Whether composition of IQAC as per latest NAAC guidelines:	Yes
Upload latest notification of formation of IQAC	<u>View File</u>
10. Number of IQAC meetings held during the year :	2
The minutes of IQAC meeting and compliances to the decisions have been uploaded on the institutional website	Yes
Upload the minutes of meeting and action taken report	<u>View File</u>
11. Whether IQAC received funding from any of the funding agency to support its activities during the year?	No

12. Significant contributions made by IQAC during the current year(maximum five bullets)

1. Revamping of Admission process of iMTech 2. Restructuring the course work and comprehensive examination framework of Ph. D. Programme 3. Preparations for NAAC reaccreditation 4. Review changes in Plagiarism check process 5. Recommendation of New course proposals

No Files Uploaded !!!

13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year

	Plan of Action	Achivements/Outcomes				
_	Initiate changes to Integrated M.Tech.	New specializations offered thus making				

Review membership of external members	the graduates more industry-ready			
into Senate	Retired professor from IIT Bombay added to Senate; Industry expert from Germany added to Senate			
Initiate steps for dealing with COVID-19	Platforms for conducting online classes and exams identified and implemented			
Initiate Integrated M.Tech. curriculum review	Introduced revamped specialization including additon of AI/ML related specializations			
Creaet policy and purchase tools for preventing plagiarism	Plagiarism-checking incorporated into thesis acceptance process thus improving integrity of research			
Appoint Committee for restructuring PhI comprehensive exam	Rigour of comprehensive exam increased thus improving quality of research students			
Continue preparing Admission Analytics for leadership team	Continued to see improvement seen in GATE/JEE cutoff scores			
No Files	Uploaded !!!			
14. Whether AQAR was placed before statutory body ?	Yes			
Name of Statutory Body	Meeting Date			
Senate	14-Oct-2020			
15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	No			
5				
16. Whether institutional data submitted to AISHE:	Yes			
16. Whether institutional data submitted to	Yes 2020			
16. Whether institutional data submitted to AISHE:				
16. Whether institutional data submitted to AISHE: Year of Submission	2020			

batch specific wise and for the entire institute as well. A IIITB applicant can apply online through the ERP, see the status of his/her application and also know the result /outcome of his/her selection through the ERP. Status of the admission is automatically updated on the portal and accessible to the applicants. The admission information on the institute website is guite comprehensive and selfexplanatory. Besides the portal and ERP support there is also a help desk available for telephonic enquiries pertaining to admission. All aspects of merit list generation, display, fee remittance, receipt etc are taken care by the ERP. The system configures the mid semester exams, internal assessments, quizzes and end semester exams and produces the final result after processing. So the ERP is an MIS solution for the campus from admission to graduation of students, taking care of all intermediatory processes in a seamless manner. Other MIS standalone systems include hostel management, student campus entry exit management, Campus people count management etc. A comprehensive Library Management Information and Retrieval system called Lybsys is also in place. The entire HR related information and Management is through a cloud base ERP called Zing HR which encompasses Attendance management, Employee Self Service Management, HR Payroll management, Mobile support, Exit Management, Help Desk, employee leave management and host of other HR related modules. The Finance related MIS is operated through an ERP accounting software called Tally which takes care of the entire gamut of financial accounting, inventory management, pay roll, purchase, fee receipts, refunds etc.

.4 – Feedback Syste	m					
1.4.1 – Whether structu	red feedback re	ceived	from all the stakeholde	ers.		
Students					Yes	

Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

At the end of the year feedback was obtained from Alumni, Parents, Employers, Students and Faculty. Dean (Academics) consolidates all the feedback and renders a report to the IQAC and also to the faculty members in a faculty meeting. This ensures continual improvement. Some of the improvements that resulted from the feedback are appended below: - Detailed inputs from Alumni was provided to the curriculum review committee of 2019 to match syllabus to industry standards. This resulted in specializations covering all contemporary areas such as Data science, artificial intelligence, Digital Society, Signal Processing, Computer networking and communication, VLSI Systems, etc. Evening snacks introduced in the hostel cafeteria. Came about as a result of feedback from parents Students given the option to do electives ("Open electives") from any of the branches including Digital Society. Moreover, students can do their internship / 20 credit project under any professor irrespective of the branch they belong to. - Consequence of feedback from some employers belonging to the non-core industry (e.g., Banking) who suggested that students should be exposed to non-technical subjects as well. Many new student clubs were formally recognized and added. Areas include photography, debating, art, theater, etc. Feedback from the SAC that more opportunities were needed for extracurricular activities. Impartus lecture capture was implemented in all major classrooms of IIITB (A106, A307, A302, A303, R103, R203). Implemented this because students shared a very positive feedback on lecture catpure of videos which allows students to review classroom lectures through Moodle. In addition to permitting PE/RE to be done in research labs and research in their labs and research centers. Several suggestions to make this possible were shared by the teachers. centers for credit, students could also do their research thesis under the professors. Separate funding to be allocated to provide stipend for research thesis students of M.Tech., iMTech and Msc Digital Society. This came about as a result of Teachers wanting to encourage students to contribute to research in their labs and research centers.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

4.4 – Maintenance of Campus Infrastructure

4.4.1 – Expenditure incurred on maintenance of physical facilities and academic support facilities, excluding salary component, during the year

Assigned Budget on academic facilities	Expenditure incurred on maintenance of academic facilities	Assigned budget on physical facilities	Expenditure incurredon maintenance of physical facilites
312.93	267.96	492.07	468.67

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

The institute administration takes direct initiative in the maintenance and upkeep of infrastructure and support facilities. The Infrastructure and Maintenance committee headed by the Director oversees the maintenance of the buildings, classrooms, sports complexes and laboratories. Registrar, Chief Administration Officer, Chief Finance Officer and various committee heads monitors the quality of maintenance of infrastructure and equipment. Infrastructure and Maintenance committee Institute's Estate Office headed by Chief Administrative Officer (CAO), maintains the campus infrastructure, electrical installations and equipment through its preventive and post maintenance activities. In case of any repairs/ faulty equipment reported orally or in the Complaint Registers maintained for this purpose are immediately attended to through outsourced staff /team. Security Services - the Campus security is also outsourced and maintained by external agency which provides round the clock security. CCTV cameras are installed in all the prime locations of the campus for surveillance. Housekeeping Services Gardening have also been outsourced. Maintenance of Academic, Library, Laboratories, IT, Sports Hostel Facilities. Academic infrastructure and maintenance is under the control of Dean (Academics) and technical staff assigned takes care of smooth functioning of classroom activities and teaching aids. IT, Library, Laboratories and Sports facilities and services are supervised by the respective faculty-in-charge and advisory committees. Institute Data Centre with the help of IT Committee through its inclusive IT policy provides Wi-Fi, Cybersecurity, Data management and recovery, licensed software, and highly refined server services round the clock with the supporting staff and maintain adequate computers accessories in Admin, faculty, Lab, and Classroom areas. Library facilities and services are well maintained by the library staff under the supervision of Library Committee and of the facilities with the help of housekeeping staff and provides its users a conducive learning environment with flexible timings for reference to its print resources and electronic resources round the clock without any physical barriers through campus internet and remote access facilities. Library committee strives to provide the optimal support in terms of teaching and learning resources and continuously looks out ways for improvement in providing the facilities and services to its patrons. through faculty recommendation , Feedback and Suggestions from campus community. Sports Complex and recreational facilities are handled by the Qualified Sports Officer and the facilities are maintained by the Campus Maintenance Committee. Sports equipments are periodically inspected and necessary repairs are done as and when required and new gears are purchased

accordingly. A separate Sports Committee comprising mostly students overseesthe day to day maintenance. Medical facilities: A Clinic with a Doctor and a nurse is available on campus. Institute has a dynamic network with local hospitals which provide ambulance facilities in case of emergency and also inpatient admissions in those hospitals. First-aid kits are kept handy and always available at the security desk near the Reception area.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Student Activities Council (SAC) is a student-elected, student-member body, consisting of equal membership from under-graduate and post-graduate students. It is an elected student body which consists of regular and full-time students only, as per the recommendations of the Lyngdoh Committee set up by the Ministry of Human Resource Development, Government of India. A structured election system is followed and students of all degree programs at the Institute select a set of eight SAC members every year. The elected SAC members decide on allocating portfolios among them based on competency and interest. SAC act as a bridge between the Institute administration and the student community. It steps in to address students grievances related to academic and administrative matters. SAC meets regularly to resolve student concerns and plan for various student led curricular and extra-curricular activities on campus. Various Student Committees are formed to guide and involve students such as • Alumni Committee collaborates with alumni • Branding Committee maintaining a presence on various social media platforms and poster design. • Food Committee interfaces with the food vendors for the mess. • Infin8 Committee organizes the annual cultural event. • Placement Committee placementrelated activities. • Sports Committee organizes sports events throughout the year. Student Clubs Aikyam help the poor and the needy in the society. 8Bit magazine run by the students. Dance Club organizes dance events and competitions. Parvaaz (Theatre Club) performs theatre and street plays. Music club organizes musical nights and perform at all key events of the Institute. Aksh (Lireature Club) forum to showcase their poetic and story writing abilities. Debate Club to enhance their interpersonal skills, communication and leadership capabilities. Enigma (Robotics Club) to develop interest in Robotics and Artificial Intelligence. SPICMACAY IIIT Bangalore Chapter organizes classical music, dance, folk arts and classic cinema screenings. Lean In Club promotes and mentors female students in computing, open source and research. Zense Club conducts Hackathons and promote Open Source culture. Movie Club to develop acute movie watching skills, depth in film viewing and appreciation. Events and Festivals: • Infin8 three-day annual event with simulation games, cultural activities and fun field games. • Yamini annual event takes place on 31st October. It consists of dance and music performances by renowned artistes across the country. • Spandan annual sports event conducted in March. The threeday event is fully loaded with outdoor as well as indoor games. • Sangam annual event exclusively for the alumni organized by the Alumni Committee. • Foundation Day celebrated on 15th September, every year. • Convocation Day held on 1st Sunday of July, every year. • Ramanujan Math and IT conference (RMIT) is annual event is held in remembrance of mathematician, Srinivasa Ramanujan. • Research Innovation, Society Entrepreneurship (RISE): The three-day event to showcase the Institutes focus and contribution in research and innovation dimensions. • Winter School is a three-day annual event by CITAPP. • Summer School aims to give students knowledge on algorithmic and theoretical aspects of machine learning.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

No

5.4.2 – No. of registered Alumni:

3280

5.4.3 – Alumni contribution during the year (in Rupees) :

885500

5.4.4 – Meetings/activities organized by Alumni Association :

02

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

On September 05, 2019 on account of efforts of Prof Rajagopalan and his team in the MOSIP a MoU Signed with Philippines to implement MOSIP for that country, A group of professors, staff members and students organized Blood donation camp at IIITB on September 05, 2019, A committee of Professors, Registrar finalized and signed a MoU on September 12, 2019 with Tongmyong University for identifying and carrying out joint research and run programs / courses. On October 30, 2019 Prof Rajagopalan and the MOSIP Team met with Mr Bill Gates in US. A group of faculty members, staff and students organized UMANG an Inter College Sports event on November 07, 2019. On account of coordinated efforts of Professors, staff and Innovation Centre team IIITB participated in the Bengaluru Tech summit from November18-20,2019 and won the won Best Exhibitor Award for the year 2019 in the Interactive and Best Managed Category. On December 13, 2019 Faculty members retreat and brainstorming on strategic planning on vision, mission and objectives of IIITB. On February 05, 2020, Dean (Academics) and a team of Professors finalized the Big Data Biology Program details in collaboration with Institute of Bioinformatics and Applied Biotechnology (IBAB), Bangalore. A team of Professors on April 02, 2020 helped Government of Karnataka in designing Dashboard for COVID-19.

Yes 6.2 – Strategy Development and Deployment 6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each): Strategy Type Details Admission of Students The admission process in IIIT Bangalore is transparent and merit based. IIITB gives advertisement on the website for each program. Potential students applied. For iMTech IIITB considers JEE MAIN organized by Ministry of Education Govt. of India. For MTech IIITB considers GATE exam. For PhD, MS by Research and MS for Digital Society students written test, followed by viva. If someone has good GATE score preferred for MSR and PhD admission Industry Interaction / Collaboration IIIT Bangalore has multiple sponsored projects, consulting from industry and special also academic programs for industry, etc, which shows a strong and long industry interaction and collaboration from the day of inception. We have also a IAB (Industry

6.1.2 – Does the institution have a Management Information System (MIS)?

Human Resource Management	Advisory Body), where multiple industry leaders in ICT areas interact with Dean- RD and others for vision for next niche areas RD. Accordingly we shape multiple research portfolios in institutes. IIITB has recruited adequate number of faculty members, Lab staff, admin staff and finance staff according to the guidelines mandated by the board and management bodies. The faculty and staff are being supported by various facilities etc. for their professional
Library, ICT and Physical Infrastructure / Instrumentation	growth and personal health. IIIT-Bangalore has a well equipped library with physical books, e-Books, journals, class lectures, and other academic requirements. IEEEXplore and other latest journals in IIITB library helps a lot the research students and faculty for their research activities.
	In post graduate level, faculty members also refers latest papers and books in class. The above licenses of journals in library helps the students a lot. It has also Koha ILMS system to help the management of library. IIITB has state of art ICT support to faculty, staff and students. It has a high end virtual computing system and multiple servers. Whole campus is covered by latest generation WiFi access points and management software. The state of art WiFi management takes care of all kind of wireless band allocation to security related issues. Each lab also well equipped with various instruments too for courses and RD activities.
Research and Development	IIIT Bangalore gives a lot of stress to research and development along with teaching. Here the faculty selections one of the major criteria is their research potential. Each faculty members publishes in good journals and conferences. For all the young faculty members, moment they join, the institute gives Rs 5 lakhs to set up their research activities. If more fund needed for RD, the institute also supports case by case basis. Research scholars (PhD) have to publish in good venue for writing their thesis. iMTech and MTech students also encouraged and evaluated according to their RD output. The institute also encourage to set up research Labs. All the faculty members write research proposal and being funded from Govt of India, Govt of

	Karnataka and many other MNCs.
Examination and Evaluation	Each course has we approved examination pattern. Like, class test, midterm, assignments, final exam, viva etc. The exam pattern discussed and approved during the curriculum design and Senate meetings. Each course concerned faculty member present the exam pattern and marks distributed for each exam to students. After the written exams and assignments evaluation, the students are shown the answer scripts. By the above process student come to know where they stand and where to improve. After the above process, the final grading is done.
Teaching and Learning	The teaching and research have been focused very seriously by IIITB authority. In this process of teaching each faculty members student feedback analyzed by competent authority. The students feedback are anonymous. This feedback process are done time to time Meetings to discuss academic output of subject from respective subject in a stream and program are also routine part of practice. In the meeting after rigorous discussion the proper suggestions to improve on the teaching learning practices are communicated to the concerned faculty for consideratio and implementation and the loop is closed during the same meeting in same academic year or semester
Curriculum Development	IIIT Bangalore is an autonomous and Deemed to be university. Chairman of the Senate forms a committee for a program. The curriculum development fo each program is done by faculty expert of that area by multiple discussions and meetings. Then the curriculum is presented to all the faculty members. Later to Senate members. Senate consists of senior faculty members of IIITB, eminent externals and other members. Curriculum is being discussed and modified if any Senate suggestion. Later the final copy of the revised curriculum is presented to Senate agai for approval. Similarly each course designed by a faculty, presented to al the faculty members, then to Senate.
6.2.2 – Implementation of e-governance in areas of operat	
E-governace area	Details

	<pre>the institute. The basic planning and development is conceived, executed and monitored by two main councils - The Administrative Council (comprising Director, Registrar, CAO, CFO, Manager IT, CEO Outreach) for administration, infrastructure and day to day running and the Deans' council (comprising all Deans) which plans and administers academic and research activities. The overall management at the strategic level is approved and monitored by the Governing Body (https://www.iiitb.ac.in/governing-body) for vision and administrative aspects and by the Senate for the Curriculum and Syllabi. All aspects of Governance, mandatory disclosures etc are given on the institute's website at https://www.iiitb.ac.in/about-us.</pre>
Administration	The Registrar along with CAO steers the overall administration of the institute to provide a learner friendly and research friendly atmosphere in the campus. The administration is proactively responsive with all stake holders of the campus community in loop, viz. Students through SAC (Students' Activity Council), faculty, staff, parents and the alumni. Utmost transparency is maintained in all the decisions and overall administration. The institute complies with all the regulatory bodies viz., UGC, AICTE, Department of Education, Government of Karnataka and participates in all its surveys, seminars and conferences to ensure that the overall administration is in sync with the policies and orders passed by these agencies. Frequent feedback is sought from all stakeholders through formal/informal meetings, surveys and various modes of communication.
Finance and Accounts	Finance and Accounts is steered by Chief Finance Officer, formerly Adviser (Finance). The institute follows Accounting Standards as promulgated by the Institute of Charted Accountants of India (ICAI). All financial and other related authority in the Institute vests in its Governing Body. To facilitate smooth operation of the affairs of the Institute, the Governing Body delegates its authority to the Director in his capacity as the Chief Executive of the Institute, with powers

	<pre>to sub-delegate except in case of items of authority that are specially reserved for exercise by the Director or other designated Officer of the Institute. All financial transactions are mostly done digitally through online banking and in a few cases through cheque (Account payee only). Petty cash facility is available to meet daily exigencies with certain financial authority with the Director. The institute finance is audited through a two-layer robust auditing process comprising Statutory auditors who conduct an annual audit and Internal auditors who conduct a half yearly audit. The institute's audited statements are available in the Annual Reports which are uploaded on the institute website at https://www.iiitb.ac.in/annual-reports.</pre>
Student Admission and Support	All admissions are through an automated process through ERP, the link for which is available in the institute website https://www.iiitb.ac.in/admissions for each of the programs. A IIITB applicant can apply online through the ERP, see the status of his/her application and also know the result /outcome of his/her selection through the ERP. Status of the admission is automatically updated on the portal and accessible to the applicants. The admission information on the institute website https://www.iiitb.ac.in/admissions is quite comprehensive and self- explanatory. Besides the portal and ERP support there is also a help desk available for telephonic enquiries
	<pre>available for telephonic enquiries pertaining to admission. All aspects of merit list generation, display, fee remittance, receipt etc are taken care by the ERP. An open house is organized on the day of admission (day 1) where student friendly counters are set up for document verification, hostel allocation, student number allocation etc. Parents are also apprised of the curriculum, infrastructure facilities and various other administrative aspects concerning the students.</pre>
Examination	The entire examination process is steered by the Controller of Examinations. A comprehensive examination infrastructure is in place

l i	for conduct of examination in physical
	mode and in online mode. Various tools
	of evaluation like projects,
	assignments, quizzes, thesis,
	internships, mid-term examination and
e	and term examinations are employed. For
t	he mid-term and end-term examinations,
t	the institute has adopted a paper-less
d	igital tablet/ exam-pad where students
	can write their exams using an
e	electronic scriber. Professors can also
	evaluate online at their own time and
5	space. Evaluated answer books are sent
	to the students digitally for their
I	perusal and feedback. This system also
	facilitates question wise analysis of
	each of the answers. For on-line
€	examinations, a system is in place for
	on-line proctoring. An ERP portal
	facilitates an automatic
g	eneration/downloading of transcripts /
I	marks card by the students themselves.
	The entire system of examination is
	thus transparent and automated at
	various levels.

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

Street lights Campus Lights - All street lights Campus Lights in open area
(38nos) are replaced with LED sets to minimize power consumption (appx 35 units
of power/day saved) 2) Removal of showers from Washrooms - Dismantled all the
Showers from the Hostel Washrooms and fitted normal taps with hot cold water
facility. This has resulted into appx 5 Thousand liters of fresh water saving
every day and also reduced load on Sewage water treatment plant. 3) Water
Saving Aerators - All the wash basins in Academic Hostel blocks (300 sets) are
fitted with water saving Aerators to reduce the flow to 20. Achieved
considerable saving of water (appx 10,000Liters per day) 4) Wet waste
Composting - Kitchen waste composters installed to compost kitchen waste inhouse. Compost is used in campus for plants. 5) Distribution of used mattress,
clothes, bedsheets (Graduated Student's) to people in need through Student
group (Aykyam) to avoid land filling.

7.2 – Best Practices

7.2.1 - Describe at least two institutional best practices

Best Practice 1 State of the art research paper reading and presentation 2. Objectives of State-of-the-art research paper reading: - a) Encourage students to take up thesis in their final year. b) Give confidence to the students that what they have learnt as part of course work is enough to read state of the art research papers. c) Encourage students to take up research career in the long run. 3. The Context Several good students do not experience what it means to aspire for a research career and lack the confidence if they can aspire for such a career path. A baby step in that direction is to make the students read and present state-of-the-art research papers e.g. papers published in top research conferences in the year 2019/20 for a course in 2020. We believed that an automatic side effect of this will be that student start aspiring to do a thesis in the final year, and make decisions whether they would like to pursue PhD or a career in research. 4. The Practice This initiative was practised as part of the Advanced Visual Recognition course, an elective offered as part of the AIML specialization, with a class strength of 30 students. The class instructor identified around 20 papers to be discussed in groups from the top conferences in computer vision e.g. Computer Vision and Pattern Recognition (CVPR) or International/European Conference on Computer Vision (ICCV/ECCV). Every student is part of a group reading papers within a theme. Each student has to own and present two papers during the course. The instructor gives some instructions regarding how to read a paper in multiple rounds - i.e. focusing on the top level contribution and the main ideas, followed by understanding the details. The students discuss with the instructor and their group their understanding of the paper. The student then records a video presentation and

shares it with the instructor. The instructor gives feedback on the presentation to improve it further. Finally all the students present their paper in the form of a seminar, and are graded. 5. Evidence of Success The student feedback showed several positives of this type of offering. This includes: a) students gain confidence seeing they are able to read papers published in 2019/20, and that too published in top research conferences. b) personalized attention given to the students while they read (e.g. the main point and the context of the paper or certain important detail left out). c) students appreciate how to present their understanding so that the audience can understand in the first attempt. d) students mentioned that this course makes them feel that they really are in the Masters level course. e) interest from a relatively larger number of students to take up thesis in this area in the final year. 6. Problems Encountered and Resources Required Initially, as this approach deviated from classroom based lecturing, the students were not sure if things would work out. Also, they were under confident that they will be able to manage the whole exercise. Finally after one round, they really enjoyed and started appreciating this approach. Of course, one challenge will be when we try to scale up this course to even larger class strength, say 60 students. In the next offering, teaching assistants who are MS/PhD students can be assigned as mentors to help the students with initial round of reading as well. Best Practice -2 1. Automation in finance process. 2. Objective of the practice: -(a) To maximize return on investments (b) To reduce unnecessary paper work (c) To have efficient control and monitoring of Finance process. 3. The Context The university income comprises of tuition fees, hostel and mess fees, Fees from continuing Professional Education, Interest income from investments of surplus funds and consulting income. The University expenditure under major heads are faculty salary, Staff salary, Housekeeping, Security arrangements, Annual maintenance of buildings, Labs, computers and other administrative overheads. The surplus of income over Expenditure are invested in Fixed deposits of banks after meeting working capital requirements in the savings account with the banks. While tuition fees are collected twice in a year, expenditure is incurred on continuing basis, that is salary of Faculty and Staffs on monthly basis thus results in a mismatch between income and expenditure on monthly time scale basis. Investments matured in a particular month are to be reinvested again after meeting working capital requirements. Further the University undertakes various RD projects funded by external agencies and University itself. The university also executing various Capital expenditures projects. In view of timing uncertainties on receipt and expenditure, the institute is facing practical difficulties as explained below. a) How much surplus funds has to be invested in fixed deposits and on which tenure and how much to park in savings account to meet operational expenses. b) Monitoring of RD projects funded by external agencies so that expenditure does not exceed budget of the projects. c) Monitoring of cash flow of Continuing professional education domain. 4. The Best Practices a) Separate bank accounts are maintained for receipts from Continuing professional education and receipts from Campus students. b) Separate bank accounts are being maintained for RD projects. c) One-time instruction has been issued to the bank to transfer the surplus funds from Current account which fetches no interest to savings account as detailed below. (I) Transfer excess funds over Rs 25 lakhs available in the current account to savings bank account. (II) Periodicity is On Daily basis in the morning. (III) Separate bank account is identified for capital expenditures and Revenue expenditures. 5. Automation in Investment decisions a) Investment pocket is defined as Rs 3 Crores, equivalent to estimated revenue expenditures in a month. If any surplus amount is received, then it will be considered to fill the pocket of a month. b) For example, the balance in the savings account is sufficient to meet, say January and February Month revenue expenditure in a particular year and subsequently the institute receive Rs 5 Crores cash inflow in February, then it will be considered to fill March pocket of Rs 3 Crores and

April pocket of Rs. 2 Crs and so on. This standard operating procedures enables the Officer in charge of working capital management to collect quotes from banks for FD amount of Rs 3 Crs to be invested in March and for FD amount of Rs 2 crs in April and accordingly investment will be made.

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

10 unbeatable reasons why IIIT Bangalore (IIITB) is the preferred university for IT education in India 1. A clear focus on our raison dêtre - It is our vision to leverage the power of Information Technology to transform the lives of individuals and society through continuous innovation in IT education, research, and entrepreneurship. 2. Over two decades of excellence in IT education - As a deemed-to-be university, we have consistently been at the forefront of IT education and innovation for the past 21 years. Intersecting between technology and society, IIITB has grown in stature to become a highly reputed institute with its unique model of education, research, and industry interaction. 3. A global outlook and an industry-ready curriculum - We attract students from all over India and abroad and have the unique distinction of selecting 100 students on merit, pushing up the level of discourse and peer group at the institute. We offer interdisciplinary courses which criss-cross information technology and social sciences. 4. Research Focus - Research is the driving force at IIITB which has three key research centres with customized infrastructure and multiple labs managed by a group of expert Faculty members. Research on the campus is showcased through different forums round the year such as IIITB Rise, Samvaad talk series, conferences, presentations and publications. 5. World-class Faculty - We have outstanding faculty drawn from the some of the best institutions across the world such as MIT, Cornell University, Pennsylvania State University, University of California Berkeley, IISc, and University of Toronto. The institute's pool of distinguished professors has the right mix of academic expertise, research experience, global industry exposure and insights. 6. 100 Placements - IIITB has recorded 100 placement with major companies in the areas of product, hardware, research and development consistently visiting the campus. Students have also bagged international offers with record salaries. Some of the consistent recruiters include Cisco, Morgan Stanley, TCS, Accenture, Telstra, MediaTek and MathsWorks. 7. A vibrant Alumni community - We are proud of our 3300 alumni, many of whom currently hold leadership positions in over 100 blue-chip MNCs and large companies in the areas of IT products and services, in India and abroad. 8. Innovation Hub - IIITB Innovation Centre collaborates with exceptional researchers, innovators, entrepreneurs, users, and communities to co-create knowledge and socially-relevant solutions using cutting-edge technologies for a wide range of social needs. Our portfolio of solutions and startups help us, our communities and our governments. The centre nurtures research-led innovations, and offer pre-seed and seed-stage investments. 9. Campus and Location: The nine-acre main campus in Electronic City, the heart of the IT Industry in Bengaluru, has five main buildings with facilities like Innovation Centre, academic blocks, research labs, state-of-the-art classrooms, playground, library, food court, four student residence halls, medical room and multipurpose hall. 10. World-class facilities and amenities: The institute has around 90,000 sq. ft. of air conditioned space. The campus has modern facilities for various outdoor and indoor sports. A modern 900 seater auditorium-cum-conference complex is almost ready

8. Future Plans of Actions for Next Academic Year

Future Plan of Action for Academic Year 2020-21 Since the COVID-19 pandemic has been raging across the world, IIITB's primary focus for 2021-21 is to ensure Academic Activities are least impacted and at the same time student welfare is taken care of. 1. Platform for Online Classes A suitable platform for conduction online classes is to be identified. The key requirements for the platform are: • Enables anytime anywhere teaching and learning • Capable of working in bandwidthconstrained environments • Enables recording of lectures to enable students to view later • Cost-effective 2. Platform for Online Assessments A secure and robust platform for online assessments has to be identified. The key requirements for the online assessments platform are: • Support online proctoring • Allow different types of questions (MCQ, typed, hand-written, etc.) • Automatic grading of MCQ questions • Online grading of hand written answers 3. Platform for Faculty and Staff Activities Investments are going to be made in platforms that will enable faculty and staff to continue to work from home. Key categories for which online support will be enabled include: • Secure access to administration and finance data via VPN • Support for home internet plans for key staff • Procure gadgets and devices to enable instructors to teach online (digital writing pads, etc.) 4. Health and Safety Sufficient budgetary allocation to be ensured to take care of health and safety of faculty, staff and students. Following activities are planned: • Procurement of equipment such as thermometers, pulse-oxymeters, etc. • Automated sanitizer dispensers • Retrofitting of wash rooms for contactless use of taps, etc. • Frequent deep cleaning of entire campus
