

Transform Your Passion into Expertise with IIIT-Bangalore's B.Tech. Programme

Degrees

- ✓ Computer Science and Engineering (CSE)
- ✓ Electronics and Communication Engineering (ECE)
- ✓ Artificial Intelligence and Data Science (AI & DS)

IIIT-Bangalore presents the B.Tech. Programme unlocking pathways to the continually evolving realm of Technology and Innovation. B.Tech. acts as your launching pad, propelling you into the vibrant realms of innovation and exploration.

Join us on a journey where endless possibilities await! Our 4-year B.Tech. Programme is tailored for students who have completed or are in the process of completing their twelfth-grade education (or equivalent). Upon completing the B.Tech. Programme, students obtain a degree that prepares them for a fulfilling career journey ahead.

Discover the B.Tech. Advantage

Embark on an empowering journey with our 4-year B.Tech. Programme. Motivated students who earn extra credits can explore two exciting add-on options:

- By registering for additional credits, the students can choose to gain deep specialization knowledge through the Honours option or increase the breadth of knowledge by pursuing a Minor in a related area.

Scholarships

- ₹ IIIT-Bangalore provides scholarships for 100% Tuition Fee waiver for FIVE top performing JEE rank holders who join IIIT-B's 4-Year B.Tech. Programme. Those who have obtained JEE Mains NTA CRL Rank of 999 or better are eligible for this unique Tuition Waiver scheme.
- ₹ The Dean's List Scholarship is awarded based on students' merit and selection is determined by the Dean's List. The minimum requirement to be enlisted in the Dean's List is CGPA or 3.6 higher.

Selection Procedure

Admission to the current year will be determined exclusively by the NTA Rank obtained in the JEE Main exam, administered by the National Testing Agency (NTA).

*This criterion is subject to the minimum qualification requirement specified in eligibility.

Eligibility

Candidates must have obtained a first-class in their 10 + 2 (or equivalent) exams with Mathematics as one of the subjects. Applicants who anticipate meeting this requirement by September 2025 are also welcome to apply.

Career Pathway

Graduates of the B.Tech. Programme can pursue prestigious career paths in leading firms of the IT Industry. On the research front, our students have received coveted Ph.D. offers from esteemed institutions like Harvard, Cornell and more. Noteworthy achievements include excellence in international Programming competitions, with impressive performances in events like the ACM-ICPC (Association for Computing Machinery - International Collegiate Programming Contest).
