Kickstart your career with our top-tier
Integrated M.Tech. Programmes

Degrees

- ✓ Computer Science and Engineering (CSE)
- ✓ Electronics and Communication Engineering (ECE)

The 5-year Integrated M.Tech. programme caters to students who have completed or are currently pursuing their Plus Two of schooling (or equivalent). Upon successful completion of the programme, students are awarded dual degrees of B.Tech. and M.Tech. The programme has been revised since 2020, enabling students in both CSE and ECE branches to specialize in dual areas.

About Integrated M.Tech. Programmes

The Integrated M.Tech. CSE/ECE is a ten-semester programme where the first eight semesters constitute academic course work. During the ninth semester, students are given an option to work on a project or choose course work which will help in pursuing higher studies.

Selection Procedure

Admission to the current year will be determined exclusively by the NTA Rank obtained in the JEE Main 2025 exam, administered by the National Testing Agency (NTA).

*This criterion is subject to the minimum qualification requirements specified in Eligibility.

Scholarships

- ₹ **Utkarsha Scholarship** that gives 100% Tuition Fee Waiver from IIIT-B for Top Rankers in JEE Mains!
- ₹ **The Dean's List Scholarship** is awarded based on students' merit and selection is determined by the Dean's List. The minimum requirement to be enlisted in the Dean's List is a CGPA of 3.6 or higher.
- ₹ Students who have a valid GATE scorecard and have cleared the GATE exam before the commencement of their final year in the iMTech program would be eligible for **AICTE scholarships** in their final year as per the AICTE guidelines.

Eligibility

Candidates must have obtained a first-class in their 10 + 2 (or equivalent) exams with Mathematics as one of the subjects. Applicants who anticipate meeting this requirement by September 2025 are also welcome to apply.

Standouts

- ⭐ The Integrated M.Tech. CSE/ECE is a ten-semester programme.
- ⭐ First 8 semesters constitute academic course work.
- ⭐ In 9th semester, students are given an option to work on a project or choose course work which will help in pursuing higher studies.
- ⭐ In 10th semester, the student may opt for thesis or internship in a well-recognized organization.
- ⭐ Students of CSE Integrated M.Tech. can specialize in:
  - ✓ **AIML (Artificial Intelligence & Machine Learning)**
  - ✓ **TSCD (Theory & Systems for Computing & Data)**
  - ✓ **DT (Digital Society)**
- ⭐ Students of ECE Integrated M.Tech. can specialize in:
  - ✓ **Major in Networking Communication & VLSI**
  - ✓ **Minor in Theoretical Computer Science, Software Systems, AIML, Digital Society**
