Program	Duration	# of Students	Internship Period	Available for FTE
MSc Digital Society	2 years	18	6 months (mid Dec - mid June)	From July

SPECIALIZATIONS

Human-Centred Digital Design

ELECTIVE COURSES

- Advanced Qualitative Research Methods
- Advanced HCI
- E-governance Application Design
- Societal Platform Thinking
- The Web and The Mind
- Software Product Management
- An Introduction to Accessibility in The Global South

Data Intensive Digital Design

ELECTIVE COURSES

- Advanced Quantitative Methods
- Data Analytics
- Data Visualization
- Geographical Information Systems
- IT Product and Project Management
- Web Science

Research and Policy Studies

ELECTIVE COURSES

- Techno-Economics of Networks
- Cyberspace, Globalization and Location
- Dynamics of the Information Technology industry
- News literacy in a digital society
- Digital Sociology
- Privacy in the Digital Age
- Technology, Ethics and AI

PLACEMENT STATISTICS

FULL TIME CTC

(INR in Lakhs per annum)

Highest - 16
Average - 9.1

INTERNSHIP STIPEND

(INR in Thousands per month)

Highest - 80
Average - 26.7

RESEARCH

The students are exposed to industry standard research with hands-on experience on projects in various centers as:

- **Centre for Information Technology and Public Policy (CITAPP)** is an interdisciplinary think-tank set-up to focus on the policy challenges. The objectives of CITAPP are Assist in decision-making and build capacity, conduct research and empower the general public.
- **E-Health Research Center (EHRC)** is an interdisciplinary Research Center that spreads across all areas of research interests in the institute towards doing applied research in the use of ICTs.
- **Center for Accessibility in The Global South** aims to RESEARCH, RETHINK AND RESPOND to issues faced by the disabled community, through research, talks and courses.
- Our students have worked on some groundbreaking research problems along with our Faculty in diversified fields and have showcased their work in renowned conferences and published their work in Journals. Take a look at the work [here](#).
