Student Satisfaction Survey Report

For the period 2015-16

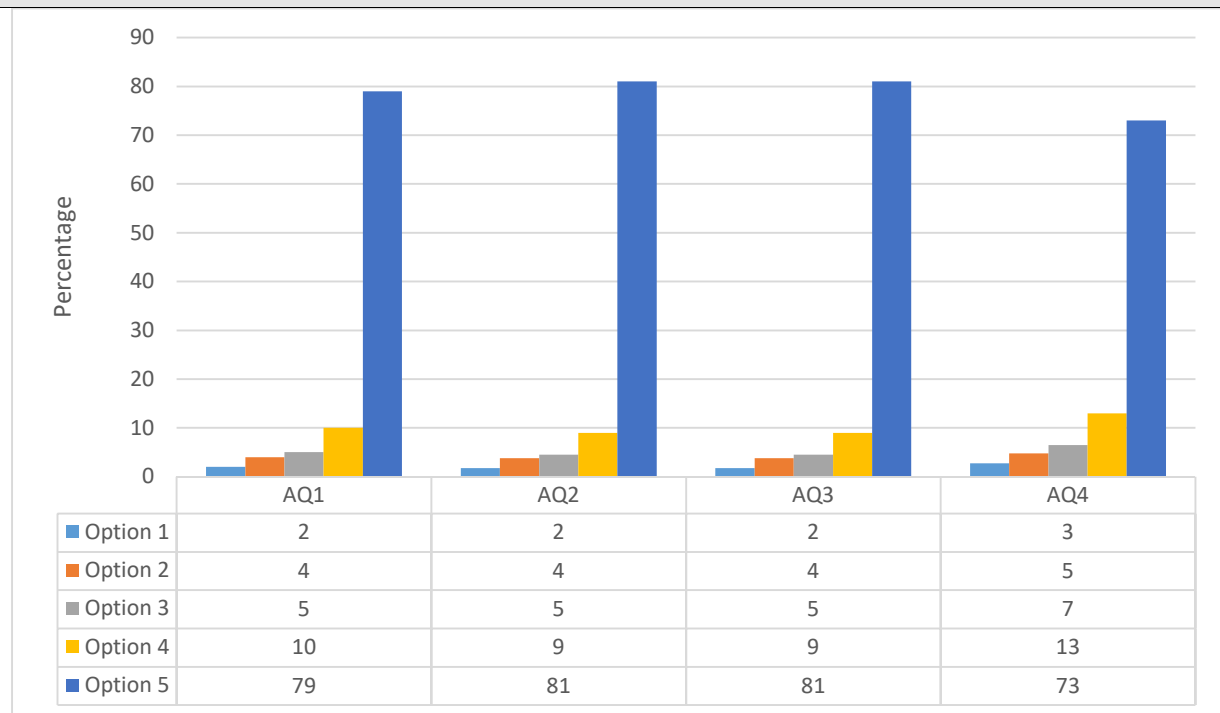

Introduction

IIT Bangalore's top-most priority is the welfare and academic excellence of its students. In order to ensure that the administration is fully aware of the ground situation regarding the students, IITB has designed a unique 360-degree approach to conducting Student Satisfaction Survey as required by NAAC.

The Student Satisfaction is divided into three separate surveys capturing three stages of the student life cycle:

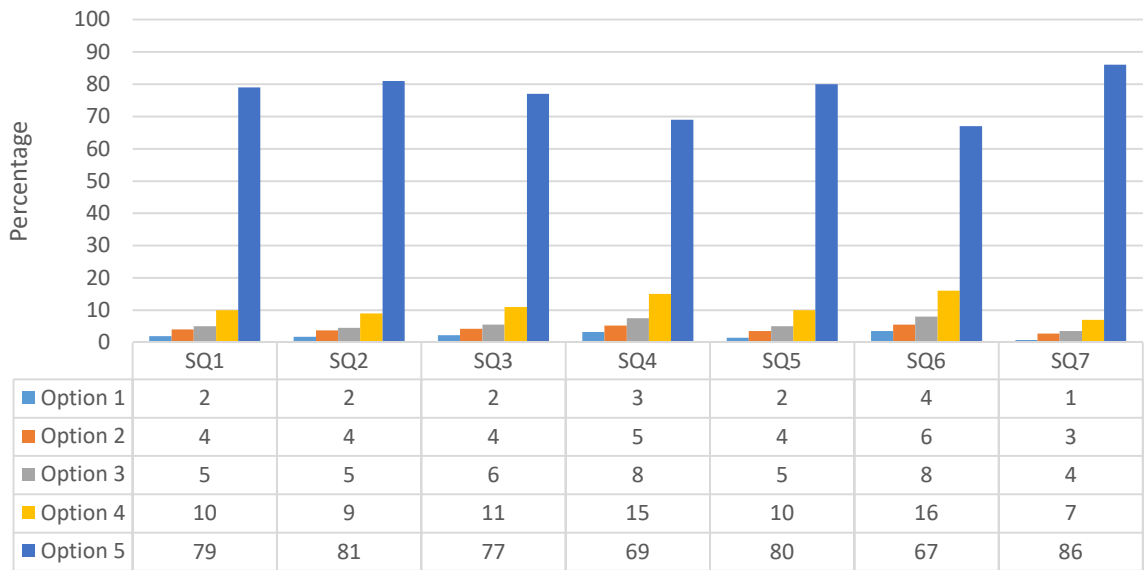

1. Admissions survey
 -) for getting feedback on the admissions process.
 -) survey administered to only new students who joined that year
2. Student life survey
 -) for getting feedback on their experience while they are students
 -) survey administered to all active students
3. Student Exit Survey
 -) for capturing feedback at the time of graduation
 -) survey administered to only graduating students

Employer Feedback Analysis

For the period 2015-16

Introduction

IIIT Bangalore prides itself for providing best placements to the graduates. One of the important elements of ensuring this is to listen to feedback from employers every year. Feedback collected is across the entire placement experience of the employers when they visit the campus for placements.

Analysis

The employers have rated IIITB's placement experience as VERY GOOD and EXCELLENT for all of the questions.

Action Recommended

1. Support can be made better by providing full stationery set for each interviewer instead of sharing stationery when companies visit campus for interviews.
2. Students can be provided more technical inputs during mock interviews.
